INSPIRATION STARTS HERE...

Between Nice and Cannes, in the heart of Marina Baie des Anges, your events take place within an internationally renowned marina, listed as a 20th-century architectural heritage site. A signature architecture where curves interact with the Mediterranean and open every perspective toward light and the horizon.

Within a next-generation building certified « Bâtiment Durable Méditerranéen » (Mediterranean Sustainable Building), discover elegant and modular spaces open to the horizon, designed to host all your ambitions from strategic meetings to convivial moments.

Inspiring study days, large-scale product launches, team-building experiences... every format naturally finds its balance here, within a setting that is fluid, luminous, and perfectly mastered.

From the moment you arrive, the sea naturally becomes part of the experience. Spaces bathed in natural light enhance every highlight, while our team carefully guides you through every stage to ensure your event feels seamless and perfectly tailored.

Jet Ski Tours

A dynamic and convivial experience designed to strengthen team cohesion while sharing thrilling sensations and relaxing moments on the water.

Beach Party at the Hotel

On the beach, offer your teams a festive interlude with water activities, relaxing moments, music, and light as the backdrop.

Boules

A revisited and convivial activity combining challenges, team spirit, and a relaxed atmosphere, ideal for shared outdoor moments.

Casino Night

Gaming tables, professional croupiers, introductions, and entertainment. Immerse yourself in an elegant and captivating evening.

A SUSTAINABLE COMMITMENT AT THE HEART OF EVERY EVENT

Hilton is committed to more responsible tourism through its « Travel with Purpose » program, which aims to reduce the environmental impact of events by optimizing resource consumption, limiting CO2 emissions, and encouraging sustainable and local practices.

In line with this vision, Marina Baie des Anges Hôtel is fully committed to a CSR approach, covering 73 % of its energy needs through a seawater thermal energy system and optimizing water management, notably through the reuse of greywater for irrigating green spaces, a performance recognized with the Silver Level certification of the « BDM – Bâtiment Durable Méditerranéen » program.

Marina Baie des Anges is also part of a wider environmentally committed complex holding both the « Clean Port » and « Biodiversity Active Port » certifications, recognizing sustainable marina management and concrete initiatives supporting marine ecosystems.

The site is also awarded the Blue Flag label, an international benchmark for environmental and tourism quality. In addition, it integrates ecological mooring systems called « Biohuts », contributing to biodiversity development and the enrichment of marine habitats.
